While we hope you remain a life long SECURECRYPT user, you can terminate these Terms at any time and for any reason by requesting deletion of your account.

SECURECRYPT may also terminate these Terms with you at any time, for any reason, and without advanced notice. That means we may stop providing you with any Services, or impose new or additional limits on your ability to use the Services. For example, we may deactivate your account due to prolonged inactivity or a breach of these Terms, and we may reclaim your username at any time for any reason. We will not be liable to you for terminating this Agreement, including for termination of your SECURECRYPT account or deletion of your content. No matter who ends this Agreement, you and SECURECRYPT will continue to be bound by Sections 9, 11-17. SECURECRYPT may modify these Terms of Service from time to time. If you do not want to be

bound by these agreements, you may not use our Services. When accessing the Services, all the information you are entering, including your username, are saved on your device and not on our servers. You are the only one with access to your Information. You can securely share or delete information at any time. Deleting information from your device eliminates all of the encrypted records from our servers, your phone, and all of the devices of your SECURECRYPT mobile contacts. Deleted messages cannot be recovered. Our servers store the encrypted messages that you send and receive only long enough to ensure their delivery to each device associated with your account. Undelivered messages are deleted after 4 hours. Such data is fully end-to-end encrypted with keys, which are, at all the time, in your sole possession. We have no ability to view, monitor, access, or decrypt messages sent between SECURECRYPT users.

ALL INFORMATION IS ENCRYPTED

Our mobile device management application enables you to communicate through a secured and encrypted channel with the assurance that your confidential information is transferred (whether it be messages, files, photos, recordings) in an encrypted channel that is protected from any malicious attacks or espionage. If you have any question about our encryption system, please contact our privacy officer at [info \(at\) securecrypt.ca](mailto:info@securecrypt.ca) ATTN: Privacy Officer

Information shared Encrypted personal information

All the Information entered to create an account is present on your device only, and in encrypted mode. You are the only one to have the key to decrypt the Information. We do not have access to this Information and do not possess the key to decrypt it.

Encrypted communication

All the Information on the Services are transferred in a secured and encrypted channel that you are the only one to have the key to decrypt. SECURECRYPT, or anybody else than you, cannot have access to your Information without your authorization.

Each message sent to another user, via text or chat, is transferred with a temporary and unique key allowing the Information contained in the message to be decrypted by the selected recipient. Only this recipient has access to the key and is able to read the data contained in the sent message. All messages are stored in encrypted form on your devices. You choose your own retention policy for your messages by choosing how long a message is viewable before it is deleted (via the self-destruct time for sent messages and manual deletion for your device). Deleted messages cannot be recovered. Among other features, the SECURECRYPT application allows you to receive read and deliver notifications, the ability to recreate security keys, encrypt pictures and storage, encrypted saved messages, and participate in group conversations.

If SECURECRYPT is temporarily in possession of any of your data, such data is fully end-to-end encrypted with keys, which are, at all the time, in your sole possession. We have no ability to view, monitor, access, or decrypt messages sent between SECURECRYPT users.

HOW WE COMMUNICATE WITH YOU INFORMATION ON OUR SERVERS, RELATED PARTY, SALE ETC.

Our systems may allow access to the temporary encrypted information on our servers with our related companies, including our parent company, affiliates, subsidiaries, or joint ventures who are also required to honour this privacy policy. However, our related companies will not be able to have access to this encrypted information as only you have the key to decrypt it. This encrypted information may be shared in connection with a merger, financing, acquisition, dissolution transaction, bankruptcy or proceeding involving sale, transfer, divestiture of all or a portion of our business or assets. If another company acquires our business or assets, that company will have the encrypted information without the key and will assume the rights and obligations regarding such information as allowed by this Privacy Policy.

SAFETY & SECURITY FEATURES IN SECURE APP

As well, when applicable, we have contracts in place with our third-party suppliers that obligate such suppliers to protect the confidentiality of your personal information. You are also responsible for helping to protect the security of your information and having a strong password that you've not used in other places is important, and remember to always set your Self Destructing Messages feature with each new contact add.
